This project is one of our most esteemed undertakings, and we are meticulously attending to every detail because the members of this group of old friends have high expectations for this venture.

A group of former school friends retired from their respective careers and decided to establish their own farmhouses together in a secluded area, while still being relatively close to the main city of Hyderabad. Shankarpally emerged as the top choice, with Mokila located on the outskirts of the Shankarpally area, enveloped by the tranquil beauty of local villages and agricultural lands.

A total of 106 plots have been developed, offering individual farmlands with a minimum area of over 4000 square feet and a maximum of more than 7000 square feet, catering to the financial capabilities of the landowners.

All modern facilities are included, such as a clubhouse, banquet halls, an outdoor auditorium, separate playgrounds for both adults and children, staff accommodations, driver dormitories, guest houses for visitors, beautifully landscaped gardens, spacious driveways, and parking areas.
